the money from this plan can
be used in retirement.

Plan holder: Rita Wright

Plan number: TK12097279

Fund breakdown

Fund name	Unit price	Units held	Value	SEDOL
Aviva Pensions My Future Focus Growth S6	£3.7884	969.7482	£3,673.79	B4W9CK6
Aviva Pensions My Future Focus Long Term Growth S6	£1.4222	2,756.6683	£3,920.53	BRGT8Z0

Our Investment Centre at connect.avivab2b.co.uk/adviser/ gives full details of the funds available for this plan, including risk ratings, additional charges and factsheets that show asset split and fund performance. Or you can visit aviva.co.uk/funds.

Visit the Investment Centre, click on 'Launch tool' under 'Fund factsheets and charting' and select 'Pension' from the fund range options. Select Your Company Pension (in Series 2 & 6) from the product name dropdown box to view the funds for the plan.

The maximum number of funds your client can invest in at the same time is 50.

Does the plan have an auto-switching investment approach?

Yes, Lifestage Investment Approach

An auto-switching investment approach is a way of investing your client's money over time, where it moves to different funds as your client moves closer to retirement.

If you need any information about the auto-switching investment approach, just get in touch or visit aviva.co.uk/investment-options.

Guarantees and bonuses

- **This plan doesn't have any guaranteed rates, including annuity rates**
- **The plan doesn't include a Guaranteed Minimum Pension**

Loyalty units or bonus:

Not applicable on this product

Protected tax-free lump sum

This plan has received no transfers in and has no protected tax-free lump sum entitlement. This plan has received no block/bulk transfers in.

The tax-free lump sum available for this plan is 25%.

Any changes to this plan, such as transferring out, won't affect the tax-free lump sum entitlement on any other Aviva plan.

Primary / Enhanced protection

Please speak to the plan holder.

23 Dec 2022	1 Nov 2022			£110.07
23 Dec 2022	1 Nov 2022	£146.76	£183.45	
16 Jan 2023	1 Dec 2022			£110.07
16 Jan 2023	1 Dec 2022	£146.76	£183.45	
Total		£2,817.79	£3,522.24	£2,091.33

Date of last regular payment:

1 Dec 2022

Pension input period

Tax year	Amount paid in	Start date	End date
2025/2026	£0.00	6 Apr 2025	5 Apr 2026
2024/2025	£0.00	6 Apr 2024	5 Apr 2025
2023/2024	£0.00	6 Apr 2023	5 Apr 2024
2022/2023	£2,935.20	6 Apr 2022	5 Apr 2023
2021/2022	£2,678.37	5 Jul 2021	5 Apr 2022

Previously your client could choose when the pension input period started and ended. On 8 July 2015 the government changed this, so from 6 April 2016 these will be aligned with the tax year for everyone. This means your client has more than one pension input period for the 2015/2016 tax year when the alignment took place.

Plan holder: Rita Wright

Plan number: TK12097279

Payments

Do payments go up automatically (we call this Indexation): **No**

Does the plan accept additional transfers: **Yes**

Charges

Annual fund charge

The following table shows how this charge is split:

Fund value	Current annual fund charge % over the last 12 months (excluding any additional fund charge)
£7,594.33	0.75%

Allocation rate 100%.
(The % of payments into the plan being invested)

Transferring out charge None

Bid/offer spread None.

Switch investment funds We offer free, unlimited switching.

Policy fee None.

If you've recently taken over servicing rights to this plan: We will need a new Remuneration Agreement signed by your client. The charges shown may be payable to another adviser (and may cease depending on policy type). Please contact us for confirmation if you've recently become the servicing agent.

Plan holder: Rita Wright

Plan number: TK12097279

Plan activity

Switches in the last 2 plan years	None
Pension sharing / Earmarking order	Please contact us.

Are transfers allowed?

Transfers in and out of this plan can be processed via **Origo Options** or you can contact us for a manual form.

Partial transfers

Plans start with a number of segments and any partial transfer must leave at least one segment remaining in the plan.

One segment is the value of the plan, divided by the number of segments - in other words, a plan worth £10,000 with 9,999 segments would have a segment value of just over £1 per segment. Where former protected rights exist, their value is as one segment in addition to the other segments, so, in this example, the plan could have 10,000 segments.

Please note that segments do not regenerate, even when more money is paid into the plan.

Your client can get 24/7 access to their pension at MyAviva

Your client can look at their plan online 24/7. They can keep track of their pension and most other policies they have with us, in one secure and convenient place, at myaviva.co.uk.

They can check their life insurance policy, find car insurance documents and even view pension statements from previous years. Registering for MyAviva is quick, and it's completely free. It's just one of the ways we're making life easier for our customers.

Plan holder: Rita Wright

Plan number: TK12097279

How will benefits be paid on death?

If your client unfortunately dies before the benefit date:

We'd work out the value of the plan on the date we were told about the death. We would take into account their circumstances at that time to determine how we could pay the benefits. We can pay out to the:

- widow/widower or surviving civil partner,
- children,
- nominated beneficiary
- estate.

We can pay the fund as a:

- lump sum,
- dependant's or nominee's flexi-access drawdown or
- dependant's annuity

If your client dies before age 75 the lump sum or income will normally be tax-free.

Any death benefits paid as a lump sum or income will be measured against their lump sum & death benefit allowance. The current allowance is £1,073,100, so for most people it's not an issue. However, if they exceed the allowance they may pay income tax on the excess.

If your client dies after the benefit date:

The options they choose at that time will determine how we pay the money.

What are my client's options?

There's lots your client can do with this plan. They have several options:

- **Pay in when they can** - paying into this plan can help increase the amount of money they'll get when they retire. Their plan is flexible and allows your client to pay more money in at any time. If they want to do this, just give us a call.
- **Pay in regular payments every month or year** - it's really easy for your client or their employer to make regular payments and we can collect them by direct debit. The minimum amount they need to pay in is £20 each month gross. In most cases, if they're a UK tax payer they'll also benefit from tax relief which means for example, for every £80 they pay in, they'll get another £20!
- **Pay in single payments** - your client or their employer can make single payments at any time. The minimum amount is £500.
- **Move into different investment funds** - your client can change funds at any time. Visit our Investment Centre at connect.avivab2b.co.uk/adviser/, or visit aviva.co.uk/funds.

Plan holder: Rita Wright

Plan number: TK12097279

What are my client's options?

- **Bring your pension plans together** – your client might be able to bring the money from other pension plans into this one or move this plan somewhere else.

Or, of course your client can leave it where it is. They don't have to do anything. We'll continue to manage the money they've built up so far in this plan until they retire. We'll still send your client a yearly statement which will keep them up-to-date with the plan.

Can this plan be used for auto-enrolment?

Unfortunately not, as it doesn't meet the rules set by the Department for Work and Pensions.

Your client and their employer can still pay into this plan. They can also move their money to a new plan with us or another provider, if it's suitable for auto-enrolment.

How does my client make a single payment?

There are several ways your client can do this:

- **Online at myaviva.co.uk**

[Myaviva.co.uk](https://myaviva.co.uk) will guide you through how to make a single payment via BACS transfer.

If they're not already registered at myaviva.co.uk it's quick and easy to do so. They'll also then be able to view and manage all their insurance, savings and investment policies in one place.

- **Over the phone**

This is a quick and easy way to make a payment, just ask your client to give us a call on **0800 068 6800**. They'll need to tell us their plan number and how much they want to pay. They'll also need to provide debit card details for the account they want to make the payment from. Don't forget, we can only take payments from a personal bank account in your client's name. And that's it, we'll do the rest.

Plan holder: Rita Wright

Plan number: TK12097279

How does my client make a single payment?

- **Send the money direct to our bank account**

Just ask your client's bank to send the payment by BACS or bank transfer to our account as follows:

Sort code **40-02-50**

Account number **61224662**

Reference **your plan number**

Once your client has made the payment, get in touch to let us know their plan number and tell us which fund(s) they'd like the money to be invested in.

Your client can call us on **0800 068 6800** or send an email to contactus@aviva.com

- **Send us a cheque**

If your client would prefer to pay by cheque, please send us a letter including their plan number and tell us which fund(s) they'd like the money to be invested in, and send it together with their cheque to the following address:

Aviva
PO Box 520
Norwich
NR1 3WG

Please make sure your client writes their plan number on the back of the cheque.

What is the MVR carry forward guarantee?

This only applies to money invested in the With-Profits Fund. Because of the way this fund works we sometimes have to make a **market value reduction (MVR)** if your client moves some or all of their money out of this fund.

However, we also make sure there are times when they can move money out of this fund and use this guarantee to remove or reduce any market value reduction.

When can my client use this guarantee?

Depending on the amount of guarantee they can use this to remove or reduce any market value reduction in the future when they move money out of the With-Profits Fund. For example, if they decide to take their benefits from this plan, switch funds or transfer to another provider. If you think your client could have a guarantee and would like to know how much this is, just give us a call.

Plan holder: Rita Wright

Plan number: TK12097279

What if your client doesn't want to keep making payments?

They can still keep the pension money built up in this pension with us (until age 75).

We'll still manage the plan and continue to send yearly statements. They'll stay invested in their chosen funds (unless we're told to change them) and the value of the plan will go down or up depending how these funds perform. Just be aware that we will continue to take charges from the plan (details of these will be in the statements). Also remember that the effect of inflation and any charges will reduce how much pension money is worth over time.

Alternatively, your client can transfer the pension money to another provider if preferred.

Your client's pension money has to stay in a pension until they at least reach the minimum pension age. This is currently age 55 (57 from 6 April 2028). However, depending on their circumstances they may be able to access their pension pot earlier such as when they have a protected pension age (to find out more visit [aviva.co.uk/nmpa](https://www.aviva.co.uk/nmpa)) or are unable to work due to ill health or incapacity.

Your client's retirement options

Income Drawdown

Moving funds to drawdown is available for this plan from age 55 (57 from 6 April 2028). We allow ad hoc payments to be taken, but don't offer a regular withdrawal facility.

Moving to income drawdown isn't possible after age 75. But once funds have been moved to income drawdown, the money can remain invested for the rest of your client's life.

Taking the fund as a cash lump sum, known as a full/partial UFPLS (Uncrystallised Funds Pension Lump Sum)

It's possible to take 100% of your plan value or a partial lump sum from age 55 (57 from 6 April 2028). It's not possible to take a cash lump sum after age 75.

Annuity income

The planholder can take their pension as an income.

Open Market Option

Different providers offer different products and services. We always recommend shopping around

Plan holder: Rita Wright

Plan number: TK12097279

Your client's retirement options

The importance of age 75

Your client must decide how to take their retirement benefits before their 75th birthday. If you haven't told us, and no funds have been moved into income drawdown, we'll automatically move their pension funds into an annuity. We'll do this the working day before their 75th birthday. Where part of the plan has already been moved to income drawdown, we will move any remaining accumulation funds to income drawdown at age 75.

Death benefits before retirement

If the plan holder dies before retirement, in most cases we can:

- pay a lump sum,
- move funds to a dependant's or nominee's flexi-access drawdown or
- move funds to a dependant's annuity.

Death benefits after retirement

The benefits payable following the plan holder's death in retirement will depend on the options chosen at retirement.
